

We feel that it's our moral duty to contribute to a more **sustainable** world. This is illustrative by the choice of raw materials, of partners, of transport and of fabrication processes. Our selection of core materials is based on a combination of our clients' requirements for a quality product as well as requirements for a minimal impact on the environment.

à BREEAM

### PRODUCT COMPOSITION

Mineral raw materials	57%	
REACH	100% compliant	<b>B</b>
Phthalates	Ortho-phthalates free	

### CIRCULARITY & CARBON FOOTPRINT

FDES / EPD	Available	<b>B</b>
------------	-----------	----------

### MANUFACTURING

Production location	Europe	
Plant certifications	ISO9001 - ISO14001 - ISO45001 - Ecovadis - ISCC+	
Produced with renewable energy	100% renewable electricity	

### PACKAGING

Cardboard tube	100% recycled content	
Protective packaging	30% - 50%* recycled content (*depending on production site)	<b>B</b>
Plugs	100% recycled content	<b>B</b>

### INSTALLATION & USE

Thermal comfort	Compatible with underfloor heating / heat pump	<b>B</b>
Recommended installation	Loose lay installation in limited sizes	<b>B</b>

### INDOOR AIR QUALITY

Surface treatment	PU	
TVOC after 28 days	<1000 mg/m <sup>3</sup>	<b>B</b>
Product certificates	Floorscore, A+, M1	<b>B</b>
Formaldehyde content	E1: <0,1 ppm = 0,12 mg/m <sup>3</sup> of air	

Please note that the data given could be imprecise and liable to modifications of a technical nature at any time. The information in these documents is valid from 03/06/2025 and Beauflor reserves the right to make changes at any moment and without prior notice. Our technology is constantly evolving, so before carrying out any projects we encourage you to contact us to maintain our highest level of standards.

Our products are classified as A+ for the emission of volatile substances in inside air (compulsive sanitary labelling in France since January 2012)
